Funding Comments

Given the difficult budget situation this year, we are unable to make firm commitments for LSTA funded projects at this time. We would like you to proceed ahead with the paperwork so we can proceed as soon as the State budget is passed. Thank you for your patience.

Program Goal

The goal of this program is to support the development of library support staff by providing candidates for Library Support Staff Certification (LSSC) with reimbursement for their coursework toward their certification. (Note: A support staff position is defined as a library position which does not require a Master's degree in library and information science.)

How the Program Works

Employees of public and county law libraries can apply for reimbursement for coursework taken toward obtaining their Library Support Staff Certification from the American Library Association-Allied Professional Association (ALA-APA).

To apply for coursework reimbursement, individuals working for a California public or county law library need to complete the *LSST Student Application* and submit it to their local Cooperative Library System.

All applicants will be notified if they were selected, or not selected, to receive reimbursement funding by the Cooperative Library System.

Library employees must submit an application to the Library Support Staff Certification Program prior to beginning any coursework for which they are seeking reimbursement.

What the Program Pays For

Library employees may be reimbursed up to $3,000 per grant year for LSSC approved coursework, up to a maximum of three years. The list of approved courses, and their fees, can be found at http://ala-apa.org/lssc/approved-courses/. In many instances the same online course may be offered by one or more providers at varying costs. In these situations, students must enroll in the least expensive course that meets their needs.

Upon successful completion of the employee's first LSSC course, the employee may request reimbursement for the application fee. Those receiving additional assistance from ALA for this program can only receive reimbursement for costs not covered by ALA.
