

# Library Services and Technology Act (LSTA) Projects

2007 – 2008

The Library Services and Technology Act (LSTA) is the only Federal program solely devoted to supporting library services in libraries of all types. Congress and the President authorize its existence and allocate funds annually for its operation. Within the two broad goals of technological improvements and services to people of diverse cultures and situations, local libraries can identify and support the highest priorities for each community.

The Act is administered by the Institute of Museum and Library Services (<http://www.ims.gov/>) in Washington D.C. The Institute makes awards to libraries for the development of library services and to individual Indian tribes and their libraries for special purposes.

This list identifies LSTA grant awards in California for FY 2007/08. It is arranged by Congressional District because Federal funds support these grants. If you are unsure of which District your library is in, use this Web site <http://www.house.gov/> to enter a Zip code and identify the corresponding District. You may also want to share information about your project with the people who made it possible. Contact information for U.S. Senators is available at:

[http://www.senate.gov/general/contact\\_information/senators\\_cfm.cfm](http://www.senate.gov/general/contact_information/senators_cfm.cfm)

## SUMMARY OF LSTA GRANTS – 2007/08

### CALIFORNIA CONGRESSIONAL DISTRICT 1 2007/08
