

Highlights

Population by Age

**Population Growth:** Population in the incorporated area of the Palos Verdes Library District increased by 2% over the past decade to 65,000. This rate of growth was similar to that of Los Angeles County but slower than the statewide rate of 10%. The greatest growth occurred among the Asian and Hispanic populations, which each increased by 2,000.

**Diversity:** This area is majority white, non-Hispanic, but is becoming increasingly Asian and Hispanic. The white, non-Hispanic share of population decreased from 67% to 61% over the past decade, while the Asian share increased from 23% to 26%, and the Hispanic share from 5% to 7% of total.

**Age Structure:** Palos Verdes is older than California as a whole and becoming increasingly so. The share of the population age 65+ increased from 19% to 24% over the past ten years, compared with 11% statewide. The median age increased by three or four years in all of the component cities to between 48 and 52 years old—much higher than the state median of 35 years old. This shift resulted from an increase in the older population, a decrease in the number of working-age people, and little change in the number of young people.

**Households:** Family households, at 79% of total, are much more common in this area than statewide (69%). The majority of older people, 78%, live with a spouse or other relatives.

**Education:** Educational attainment is much higher than in the state overall. Over 66% of adults have a Bachelor’s degree, compared with 30% in California as whole. Just 3% of adults have not completed high school, compared with 20% of adults statewide.

**Income:** Household income is high relative to the state as a whole. The majority, 61%, of households have income of \$100,000 or more, compared with 27% statewide. The unemployment rate, 4% in June 2011, has consistently been below California’s rate.

**Foreign Born:** The foreign-born share of the population, 26%, is similar to the statewide share; however, the region of origin differs from that of immigrants in California overall, with 66% from Asia, 18% from Europe, and just 9% from Latin America.

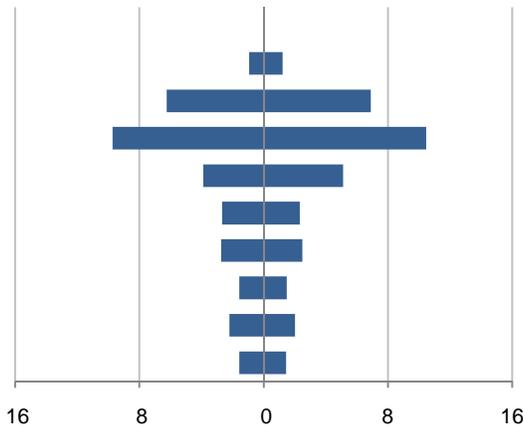

*The Palos Verdes Library District serves four cities and part of the surrounding unincorporated area. This profile covers only the population within the four cities: Palos Verdes Estates, Rancho Palos Verdes, Rolling Hills Estates, and Rolling Hills. Profiles for the individual cities are also available.*

*This demographic profile is part of a series of library jurisdiction profiles prepared for the California State Library by the Stanford Center on Longevity. The project, "Understanding California's Shifting Demographics," was supported in whole by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian. The opinions expressed herein do not necessarily reflect the position or policy of the U.S. Institute of Museum and Library Services or the California State Library, and no official endorsement by the U.S. Institute of Museum and Library Services or the California State Library should be inferred.*
