

Sutro Library Exhibit

The Panama - Pacific International Exhibition of 1915

To mark the centennial of the 1915 San Francisco world's fair, Sutro Library is displaying an array of photographs, pamphlets, and ephemera from the fair.

The exhibit shows the immense scale and diversity of the fair, which contained rare works of art and sculpture by some of the world's most distinguished and skilled artists. The fair also showcased feats of engineering and industrial achievements, such as a working Ford assembly line, and was the first to offer airplane rides to the public.

Exhibit hours: Weekdays 10 am – 5 pm
