DIGITIZED RESOURCES

Can't come to the library just yet? No worries! There are a number of online resources you can explore related to wildflowers in California!

[Digitized Images](#)

We have scanned and digitized a small portion of our wildflower image collection and placed them in our online catalog. Check them out and remember that we have a lot more in the library.

URL: https://csl.primo.exlibrisgroup.com/discovery/search?vid=01CSL_INST:CSL&sortby=rank

Type in Search Box: (Trees Shrubs plants) OR (landscape desert*) OR (wildflower*) OR (wild flower*) OR (Native plant*)

DIGITIZED RESOURCES

[Calscape](#)

Want to plant a garden full of California Natives? This California Native Plant Society Database will help you determine what is native to your area.

URL: <http://www.cnps.org/>

[Consortium of California Herbaria](#)

Want to track down a plant specimen? Curious about a flower's geographic range? This database compiled by California's best herbariums list plant specimens and collection locations.

URL: <http://ucjeps.berkeley.edu/consortium/>

[CalFlora](#)

Want to contribute to native plant mapping next time you snap a picture on a hike? This crowdsourced database contains thousands of wildflower images useful for range information and even species identification.

URL: <http://calflora.org/>

GENERAL REFERENCES

Unsure about where to start? Consult a book! If you are interested in how native wildflowers fit into and contribute to California's environment, these items will help.

Bakker, E. (1984). *[An island called California : An ecological introduction to its natural communities](#)* (2nd ed., rev. and expanded.. ed.). Berkeley: University of California Press.

Want a general introduction to California's natural history? This book should do the trick! It not only covers native plants, but the animals present in each environmental region of California.

URL: https://csl.primo.exlibrisgroup.com/discovery/search?vid=01CSL_INST:CSL&sortby=rank

Search by: Title and/or author

Schoenherr, A. (1992). *[A natural history of California](#)* (California natural history guides ; 56). Berkeley: University of California Press.

Are you a generalist at heart? For a comprehensive overview of how California's geography, native plants and animals fit together, this book is just the ticket.

URL: https://csl.primo.exlibrisgroup.com/discovery/search?vid=01CSL_INST:CSL&sortby=rank

Search by: Title and/or author

WILDFLOWER IDENTIFICATION

Have you found an odd looking blossom? Curious about what it is? These classic wildflower guides will help!

Abrams, L., & Ferris, R. (1923). [An illustrated flora of the Pacific States Washington, Oregon, and California.](#) Stanford University: Stanford University Press.

Some books withstand the test of time. This four volume illustrated guide to western plants is one of those. It organizes plants by family and lists their ranges.

URL: https://csl.primo.exlibrisgroup.com/discovery/search?vid=01CSL_INST:CSL&sortby=rank

Search by: Title and/or author

Jepson, W., & Hickman, J. (1993). [The Jepson manual : Higher plants of California.](#) Berkeley: University of California Press .

One of the gold standards for plant identification, this book lists detailed botanical information about native and introduced California plants by family. Updates to the manual are also available online at <http://ucjeps.berkeley.edu/jepman.html>

URL: https://csl.primo.exlibrisgroup.com/discovery/search?vid=01CSL_INST:CSL&sortby=rank

Search by: Title and/or author

WILDFLOWER IDENTIFICATION

Kavanagh, J., & Leung, R. (1994). *[The nature of California : An introduction to common plants and animals and natural attractions.](#)* San Francisco, Calif.: Waterford Press.

Written for laymen, this approachable little volume will help you easily identify the most common plants and animals you will encounter in California.

URL: https://csl.primo.exlibrisgroup.com/discovery/search?vid=01CSL_INST:CSL&sortby=rank

Search by: Title and/or author

WILDFLOWER GROWTH AND RANGE

Tibor, D., & California Native Plant Society. (2001). *[Inventory of rare and endangered plants of California](#)* (6th ed., Special publication (California Native Plant Society) no. 1). Sacramento, CA: California Native Plant Society.

Many of California's native plants are now so rare they are in danger of disappearing altogether. This book lists these plants, their ranges and what threatens their existence.

URL: https://csl.primo.exlibrisgroup.com/discovery/search?vid=01CSL_INST:CSL&sortby=rank

Search by: Title and/or author

WILDFLOWER PERIODICALS

Want a fast read about a specific plant species or native plant rich locale? Our periodical collection might have what you're after! Here are some particularly promising native plant publications.

California Native Plant Society. (1973-). [*Fremontia*](#). Berkeley: California Native Plant Society.

Dating from the 1970's to the present, this magazine not only profiles individual plants in danger of extinction but also conservation efforts and the growth habits of specific plants.

URL: https://csl.primo.exlibrisgroup.com/discovery/search?vid=01CSL_INST:CSL&sortby=rank

Search by: Title

***Erythraea*. (1893-1898). Berkeley: University of California.**

One of our earliest California native plant serials; articles in this magazine describe the ranges pollination methods etc. of individual plants and provide helpful hints on plant identification.

URL: https://csl.primo.exlibrisgroup.com/discovery/search?vid=01CSL_INST:CSL&sortby=rank

Search by: Title

Pacific Horticultural Foundation. (1940-). [*Pacific Horticulture*](#). San Francisco: Pacific Horticultural Foundation.

Dating back to the 1940's under various titles, while this journal covers far more than native plants, it does regularly carry articles on wildflowers and local plants.

URL: https://csl.primo.exlibrisgroup.com/discovery/search?vid=01CSL_INST:CSL&sortby=rank

Search by: Title

CATALOG GENERAL RESEARCH TIPS

While many of our materials are online, even more are only in hard-copy. You can use the following resources to learn about our books, articles, and manuscripts on wildflowers.

Catalog

If you are looking for [images](#), [books](#) and [articles](#) on wildflowers, your best source is our [catalog](#).

URL: https://csl.primo.exlibrisgroup.com/discovery/search?vid=01CSL_INST:CSL&lang=en&sortby=rank

Type in Search Box: (wildflower*) OR (wild flower*) OR (Native plant*)

Limit: By desired material type

California Information File II

Sometimes the catalog doesn't provide as much detail as you might like. This is why we created the California Information File II. In this resource, you can find information about individual wildflower articles and more!

URL: http://dbs.library.ca.gov/dbtext_html/QueryCalinfo.htm

Type in Subject Box: wildflower* OR wild flower* OR Native plant*

For a narrower search: Add a place to your keyword search

COUNTY-SPECIFIC RESOURCES IN OUR CATALOG

Curious about native plants and wildflowers in a specific county? While these catalog links don't list all of what the California History Section has, they are a good starting point.

[Butte](#)
[Kern](#)
[Lassen](#)
[Marin](#)
[Merced](#)
[Monterey](#)
[Orange](#)

[Placer](#)
[Riverside](#)
[San Bernardino](#)
[San Francisco](#)
[San Luis Obispo](#)
[Santa Barbara](#)
[Santa Cruz](#)
[Siskiyou](#)

ON-SITE RESEARCH RESOURCES

Our collection predates computers and so do some of our access points! If you are in the library, be sure to check the following analog files for leads on more resources.

California Information File

In the library? Check the California Information File before you do anything else! This file indexes over 130 years of California native plant articles, books, and manuscript collections.

Subject Headings:

1. Botany (various subdivisions)
2. Flowers (various subdivisions)
3. Plants (Various subdivisions)

Picture File

Sometimes a picture is worth a 1000 words, and not all of our pictures are online. To check the rest of the collection search our picture file.

Subject Headings:

1. Flowers (various subdivisions)
2. Plants (Various subdivisions)

PICTORIAL ON-SITE RESOURCES

We collect images of wildflowers! These largely unknown watercolor and photograph collections document and celebrate the richness of California's native plants.

Ethel Bailey-Higgins Collection

This primarily Southern California photographic collection from the turn of the century lists the name of the plant depicted and as well as where the artist found it.

To Access: Consult with librarians.

Cornelia Cunningham Collection

One of our larger single collections, Cornelia Cunningham depicted over 200 California plants in watercolor at the turn of the last century.

To Access: Consult with librarians.

Lena Scott Harris Collection

These colored photographs contain a mix of native and non-native plants dating from the turn of the last century.

To Access: Consult with librarians.

PICTORIAL ON-SITE RESOURCES

Louise Hutchinson Collection

Created by another watercolorist, this collection of mostly Humboldt region plants, is especially useful because it lists general location information for each of the depicted specimens.

To Access: Consult with librarians.

A. C. Pillsbury Collection

This collection contains about 100 colored photos of wildflowers in Yosemite complete with the date Pillsbury took the picture and the flower's name.

To Access: Consult with librarians.

Albert Valentien Collection

A painter who worked for Rockwood pottery, these paintings done at the turn of the century exhibit his talent as well as the beauty of California's wildflowers.

To Access: Consult with librarians.

OTHER ON-SITE RESOURCES

Despite our best efforts, some of our resources defy complete description. We suggest that you ask a librarian about any wildflower or native plant information contained in the following files

Vertical Files

Our massive collection of vertical files covers a wide variety of topics including native plants. You can check them for information on organizations that protect wildflowers and sites famous for them.

Subject Headings: Check with librarians.

Postcard Files

Separate from our photo collection, our postcard collection contains a number of wildflower images. Most are not online.

Subject Headings: Check with librarians

OTHER PLACES TO LOOK

Of course the California History Section doesn't have everything, so we suggest that in addition to looking at our collections, you contact the following organizations
